THE LOGAN DRY GOODS CO.

Of Local Interest.

Four letters came in too late for this issue. We must have them early in the week.

A man never wants to be an angel as long as he can make a living at anything else.

Another sprinkle of the "Beautiful" fell Monday night. Verily, winter is with us "for keeps."

Fishermen say the river is full of "good-uns" this Spring. The chances are they will stay there, too.

Last year Gus Sun's Minstrels were voted fine. This year they are stronger and better in every way.

Is this your paper, or did you send over and borrow your neighbor's? If you did, do not run us down. Remember you are getting what some other fellow paid for.

New Telephone Card.

The Record office is preparing a new telephone card. If you are thinking of putting in a phone, do so at once, while you can get your name in the pot.

Delayed.

Some of our people were planning a trip to Washington State, but snow bound trains in the North west will cause an indefinite delay. Early summer is the time to visit that country.

Mr. Butler Hudson, brother of L. H. Hudson, of Lower Garrard, was killed by James Flynn, a prominent politician, at Columbus, Ga., Monday. Politics is said to have been the cause.

Parade in Afternoon.

The Gus Sun show comes from Lebanon, and will not arrive till 3 p. m., the parade following immediately. From here they jump to Somerset, not showing at small villages like Danville, Richmond and Stanford.

In The Swim.

The Lancaster Oil Company has purchased the Wage farm on Richland creek in Knox county for \$25,000. The famous Wage gusher is located on this farm, and our company gets all the rights of the former owner of the land. It is believed that the company has made an investment that will bring them a large sum of money.

Not until you have seen the Gus Sun American Minstrels can you say you have seen the best.

Fiscal Court.

The Court of Claims was in session three days last week. The claims allowed for current expenses amounted to \$2,400. The court is made up of good business men who guard well the interests of the people.

Sunday School at Herring's.

H. A. B. Marksbury desires to meet the children at Herring's school house Sunday afternoon, at three o'clock, to organize a Sunday school. Mr. Woolford will preach at that time.

The Young Peoples' Missionary Society of the Presbyterian church, will give a social at Odd Fellows hall Friday, the 18th, at 3 to 5 and 8 to 11 o'clock p. m. Fresh candies for sale. Admission free.

New Store.

Mr. Joe Faulconer has opened a "Racket Store" in the Stormes block, Danville avenue, and has anything you want in the merchant line. Joe is a clever young fellow, and the Record deserves for him a liberal share of patronage.

Drew The Hat.

Last Saturday, Noel Sisters offered a five dollar hat to the person guessing nearest the number of violets in their window. Miss Sallie Tillet and master John Dunn guessed 550, and it was found there was 552 in the jar. In "drawing straws," John got the hat.

Most Versatile Entertainer.

Elizabeth de Barrie Gill is one of the most versatile entertainers on the concert stage. She has a highly cultivated contralto voice which she knows well how to handle, and her songs are as varied as her sketches.

Philadelphia Bulletin. At Court House, Saturday night, April 12. Benefit Baptist church. Admission 25c. Children 25c. Seats on sale at J. M. Logan's.

Singer and Impersonator.

Elizabeth de Barrie Gill caught the house at once and her very first selection brought forth a storm of applause. She is perfect mistress of the platform and Phoenixville public wants to hear her again. The Messenger, Phoenixville. At Court House, Saturday night, April 12. Benefit Baptist church. Admission 25c. Children 25c. Tickets on sale at J. M. Logan's.

A. No. 1.

Mr. E. D. Beiser, inspector for the Hartford Steam Boiler Insurance Co., was here Monday and went over THE Record's steam engine. He found it O. K., and said it was one of the best kept he ever saw. Mr. Beiser is a gentleman, and one of the most expert boiler men in the country.

Rev. Mr. Chumley Takes Charge.

A large congregation greeted Rev. C. M. Chumley at the Presbyterian church Sunday. All are well pleased and believe the church will prosper under his charge. Mr. Chumley is a pleasant gentleman, and those who are judges in such matters say he is a splendid preacher.

A Good Entertainment.

The Berea College Glee Club gave a splendid entertainment at the Opera House Friday night. The fact that they were coming had not been sufficiently advertised, or they would have had a better audience, but as it was only a few people heard them. The troupe consists of students of the college, all white people, and their show is worthy of liberal support.

A Word of Warning.

As smallpox has appeared in many localities close to us, it is well enough for the health authorities to begin taking steps toward keeping out the disease. The usual vaccinating ordinance can be issued as well now as it can later on, and THE Record would advise that the work begin at once. A stitch in time saves making a pair of breeches, you know.

A Farewell Kiss.

A dollar spent at home helps pay taxes, build churches, school houses, and does a hundred other things that benefit you. When about to spend a dollar away from home, think of this, and if you must send it away kiss it good-bye, for it is gone forever. The big mail-order houses will never think enough of you to send it back here.

Good Show.

Quo Vadis was presented at the local Opera House Tuesday night to a fair audience. Considering the excellent show, and its wide popularity, it is surprising that a larger audience was not present. People kick for "something refined and deep," and when such plays are brought here they don't patronize them. Such people are too stingy to go anyway, and ought to be the last to complain.

Dress-Making Establishment.

Mrs. Maggie Hobbs has fitted up an elegant room just below THE Record office, where she is prepared to cut, fit and make dresses in the best possible manner. She uses the celebrated Work tailor system, which insures a perfect fit. As soon as the weather justifies, she will open an ice cream parlor in connection, where ladies, especially, will be served with the best cream and cake at reasonable prices.

Remember This.

Please do not call business houses by phone unless you have something important to speak about. Business men don't have the time or inclination to quit work and be annoyed by trivial matters. There's nothing so disgusting as to have to quit your work and answer a telephone only to have some girl ask "Is Willie Softhead there?" While Willie may be there, yet Willie is being paid pretty well to do something else.

The Graded School.

Of all our recent improvements the Graded School is the most substantial and stands pre-eminently above them all. It is instrumental in bringing about the mental illumination and the moral improvement of mankind, and in creating a better citizenship. It is the cause of our increase in population, and it has enhanced the value of property, besides putting new enterprises on foot and giving new life to business generally.

Tally For The Record.

Cynthiana Democrat—Louis Landram's Lancaster Record has entered upon its thirteenth year, and hear's hoping no bad luck will come its way.

Stanford Journal—The Lancaster Record is 12 years old and Brer Landram has been at the helm seven years. Kentucky has few cleaner or better papers and here's hoping that it may live long and prosper and that its clever editor may some day get rich enough to buy a share or so of stock in Lincoln county's oil wells.

A Good Council.

Our Board of City Council is progressive, up-to-date and economical. While they protect the interests of individuals, they always have in view the general welfare, and, under their administration, much will be done that will enhance the value of property and put Lancaster in line with our sister cities. They have already contracted with a firm which agrees to bore for water, and guarantees a flow of 50,000 gallons per day. If this is not done it will cost nothing. If it is a success, water-works will cost about \$20,000 less than they would if we had to pipe to the river. If the plant is built at such a reduction, the Council will be regarded as public benefactors.

The street pageant and musical carnival given by the Gus Sun American Minstrels daily is without a peer. Don't fail to see it.

The "Coppers" to Organize.

Police, Sheriffs, Detectives and all other officers of like duties will organize an association for the purpose of a more systematic plan of capturing criminals. They will meet in the office of Chief of Detectives, Harry Stough, of Lexington, on April 10th. The committee that will meet there is G. T. Helm, Danville; R. O. Hughes, Somerset; John Traynor, Nicholasville, and Harry Stough, of Lexington. This committee will decide on some plan to make the organization permanent and to extend over the State.

Hustlers Are Scarce.

It's almost impossible to employ a boy who will stick to business and hustle. Once in a while a good one will show up, but he is a curiosity these days. We heard of a hustler in Lexington, the other day. A prominent business firm advertised for a boy, application to be made in the boy's own handwriting. They got among others the following, scrawled upon a sheet of wrapping paper: "Dear Sir:—I would like your job. I aint got no folks and I haf to hustle. It beats h—l how hard times is." The boy got the job.

Best of The Season.

Manager T. B. Long informs us that he has booked the Gus Sun American Minstrels at the Garrard Opera House for April 11. The company travels in their own \$10,000 Pullman Palace car, headed by the famous comedian, Sam Horner, assisted by an able corps of singers, dancers, musicians, acrobats, burlesquers, European novelties, and last but not least, Mr. Gus Sun, the wizard who has astonished two continents with his wonderful juggling and balancing. The engagement promises to be a record-breaker, and a program of unusual merit. Seats on sale at Stormes. Prices 25c, 50c and 75c.

They Go North.

Every Spring, as soon as the weather begins to get good and hot, there is a rush of negroes to the cities, and it is impossible to get them to remain and work in the country towns. Although receiving good wages, they take advantage of the first cheap excursion to get away. As soon as the cold weather begins to pinch their trilling hides, they rush back home and beg their old situations. In a few weeks now, these same people will strike out and leave their employers without a word. The weather evidently works on Rastus, as he's bent on going and go he will.

Be Cautious.

An arrangement will likely be made between the county court and City Council by which several blood hounds will be purchased and kept in the city. It will then be dangerous to visit a chicken roost, a corn crib, or to engage in any kind of pilfering, as the dogs will be here to start on a fresh trail, and they will be sure to land the thief. Get the dogs by all means. It will not be safe then for any one to be caught in a suspicious place, as a crime might be committed, and the dogs might get the trail of an innocent party which would require a considerable amount of explaining.

More Improvements.

Mr. William Tillet who was awarded several contracts to put metal on the turnpike roads has leased a rock crusher from parties in Fort Wayne, Indiana, and he is preparing to grind the metal at a rapid rate. It is said that stone broken by a crusher makes a smoother and a more desirable road. It has been suggested by Judge Hemphill that the public square be covered by the screenings from the crusher, which will make a surface very much similar to cement, and our city will be the most beautiful one in the State. The screenings will also be valuable for drives and walks in the cemetery and elsewhere.

"Best People On Earth."

Many wonder why the above title is dubbed on the Elks. In the first place, "B. P. O. E." stands for "Benovolent and Protective Order of Elks," but the following lines will explain more fully why the boys get the name:

Ten little lodgemen went out to dine, a cocktail killed a Macabee and there were nine.

Nine little lodgemen drinking their fate, down went an Odd Fellow and then there were eight.

Eight little lodgemen thought they were in heaven, a small bottle fixed a Forrester and then there were seven.

Seven little lodgemen playing funny tricks, another cork; a Red Man, and then there were six.

Six little lodgemen trying to booze and thrive, the next round fixed a Woodman and then there were five.

Five little lodgemen, the others on the floor, a Malta Knight gave up the ghost and then there were four.

Four little lodgemen on a lovely tea, a Mason got his habits on and then there were three.

Three little lodgemen around the brew, away went a Pythian and then there were two.

Two little lodgemen pretty nearly done, a Shriner couldn't stand the pace and then there were one.

One little lodgeman drinking all alone, he was an Elk and took the whole bunch home.

Not On Your Life.

The other night, as a Record employee was entering the Opera House, he heard a little dude, with a ten-dollar hand-me-down suit, and a head about the size of a walnut, remark, "He gets in free. All newspaper men get in free." We are aware that this is the general impression, and that is why we say here that we gave that show \$6.70 worth of advertising, in return for which we received four tickets, amounting to \$3. It would suit us much better to pay cash and receive cash from the show people, but that's not the style, and we publish this to show that for every "free" ticket a newspaper gets, it pays about two or three times its worth in advertising, and a paper's space is for sale the same as a groceryman sells sugar and coffee.

A Revolution on Battle Rock.

Chief of police S. D. Turner, and his assistant, Mike Turner, at a late hour of the night, raided several abodes on the "clute" where chastity is frequently disregarded, and arrested a number of colored men and sable damsels. They were taken before Judge Ford. County attorney J. I. Hamilton who is making an able prosecutor, moved to dismiss the warrants against four of the couples, provided they would agree to be married at once. They readily consented, a colored minister was summoned, the county attorney paid for licenses, they were married and went on their way rejoicing. It is hoped that the step will be taken by others and that the marriage vows will be sacredly kept. Others were arrested for running "Blind Tigers" and one for running a "Blind Lion," or selling cocaine unlawfully. A few more such raids, and the backbone of corruption will be broken in that section.

Council Meeting.

At the meeting of the City Council Monday night, it was decided to require all insurance companies doing business in the town to pay a license of \$5 per year. The tax rate was then fixed at seventy-five cents. This was done in order to raise the \$2,000 to pay the water works debt, should the drilling prove successful. Of course if water is not found in sufficient quantity the tax rate will be put back at the present rate. It was further decided that the test for water be increased and the contract now reads that the well is to furnish 50,000 gallons per day for three consecutive days. The contract has been entered into, and,

as mentioned elsewhere in this issue, if water is not found, it will cost the town nothing. The Council is displaying "hoss" sense in this matter, and the people should appreciate their excellent work.

Died In New Orleans.

News of the death of W. C. Bettis was received from New Orleans yesterday. He was a brother of Miss Ann Bettis, of this city, and was well known by many of our citizens. He was an upright, honest man, and popular with all who had the pleasure of his acquaintance.

Elegant Display.

The millinery openings brought a large crowd to town Saturday, the streets and stores being crowded all day. All the stores, Misses Sallie Tillet, Noel Sisters and Logan's were beautifully decorated, and the goods displayed tastily. The designs this season are unusually pretty, and the stock displayed here being strictly up-to-date, the ladies are charmed by the beauty of the stocks. As we say every Spring and Fall, you can find just what you want here in Lancaster, and we don't believe any prettier or more stylish hats are shown anywhere than right here. While the goods are much handsomer and elaborate than heretofore, yet the prices are extremely low, and for a moderate price you can get the very latest creations and effects. The Record would advise the ladies who have not seen these displays to come and look at them. You will be surprised.

A Substantial Organization.

Those who are contemplating taking stock in the Danville Building and Loan Association should speak to H. G. Sandifer, Sam Lyons or C. N. Smith about the number of shares they wish to subscribe for. The new series will be issued May first. The fact that many investment companies over the country are breaking, and that the local association is in a prosperous condition is proof that an institution conducted on sound business principles, as this one is, should be encouraged by all who wish to save their earnings and ultimately own their homes. There are many here who regret today that their money was not invested in the local company instead of foreign concerns which took the bankrupt law and left them nothing but worthless paper. Arrange for your stock at once.—Advo. cate.

H. T. LOGAN

The One Price Clothier and Furnisher.

South-Eastern Kentucky Oil and Gas Company. Lancaster, Ky

Par Value of Shares \$1.00. Full Paid and Non-Assessable.

OFFICERS: Lou J. Craig, president; Geo. W. Palmer, vice president; C. D. Walker, treasurer; J. W. Alcorn, counsel; W. McC. Johnston, secretary.

Money is always made by those who get valuable information EARLY and act on it PROMPTLY; but those who go in at the START, who do "business" on the "ground floor"; there is no art in being late. It is those who are EARLY who make the MONEY. The KENTUCKY oil field is attracting the attention of the best oil men everywhere. Experts have pronounced it unquestionably the coming field for the production of high grade refining oils. The oil fields of New York, Pennsylvania and West Virginia are gradually becoming exhausted, while Texas provides fuel oil only. The great fortunes made in oil in those states will be duplicated many times in Kentucky in the next five years. The only question is, who shall reap this harvest. Realizing this fact, this company has been quietly, acquiring the cream of the oil property in this

State, and knowing the importance of having its development in the hands of a trained oil expert has secured as its manager and President, Mr. Lou J. Craig, who is up to this time the most successful oil producer in the State. His discovery and development of the splendid oil pool in the Bath-Menee field eight months ago, until then not even suspected of being there but now containing over thirty wells all strong producers, stamps him the foremost in Kentucky Oil Development. For every dollar then invested there, on the "ground floor," on his judgment; he now shows \$1,000 in oil already produced, from which all feel assured investors in our company are protected as far as human foresight and wisdom can provide in oil development and operations. OUR PROPERTIES:—By acting promptly, our company has se-

cured about ten thousand acres of the very choicest oil properties in practically all the developed fields in the State. We are now drilling in the splendid Bath-Menee field where we hope to bring in a strong well very shortly. We have also just closed a contract to sink a number of wells on our property right in the center of the oil field of Knox county within 60 days. Our property there lies on the famous Richland Creek oil field, near and in sight of both the Jones and Wages gushers, estimated at twelve hundred barrels each per day. When the Wages gusher came in on Christmas day, it was beyond control for three days and in spite of all efforts to cap it, overflowed for seven miles down the creek, catching fire and destroying the drilling machinery, trees, drift, and everything along the creek for seven miles. Our property is just

between these wells and the Indian Creek wells; is just above and immediately adjoining the Hutchings well that came in last week, and where four wells are now under contract. We are just below and in sight of the famous Jarvis well, regarded as one of the very best in the field. The property adjoining us above and just between us and the Jarvis well, is to be developed in April and several other tracts within a few hundred yards of us are to be drilled as soon as derricks can be erected and machinery placed. Not less than 100 other wells are under contract in the vicinity, so we are entirely surrounded by this development and are right in the center of this splendid Oil Pool, having strong producers on the four sides of us which absolutely insure prompt returns to our investors. The Hutchings, Swan Lake and

other Companies, operating in this oil pool have promptly withdrawn their stock from sale and we believe we are the only company in this immediate oil field who has not done so. For the purpose of raising funds for immediate development, including tanks and pipe line, our company now offers for sale Twenty Thousand Shares of its capital stock at par \$1.00 per share, in amounts from one share up. Every purchaser of stock will own an interest in all the properties of this company. Those who got in on the "ground floor" in the Stickford, Sunny Brook, Mt. Sterling and several other companies, here only a few months ago have already cleared hundreds of thousands of dollars, and it will grow to millions during this year, and we are offering you the same opportunity to share in the same good fortune.

IN CONCLUSION:—We guarantee that every dollar derived from the sale of the treasury stock in the company shall be economically and wisely as human foresight can provide, expended in the development of Company's property. That no officer of this company shall receive one cent of salary until the company has reached a dividend-paying basis and has actually PAID at least ONE HUNDRED PER CENT. in dividends to all the holders of its capital stock. If you desire to invest, invest NOW. We need your money NOW for development purposes. We will NOT need it LATER. When we have brought in the first two wells, the stock will be withdrawn from sale entirely. We refer to every bank or business house in Garrard county. Address all communications to the Secretary.

We Can Save Money For You!

When you come to town, don't fail to take a look at our stock. Remember, we have the OLD HICKORY WAGON, all sizes, and the largest and best selection of SURRIES, PHAETONS, BUGGIES and ROAD WAGONS ever put on the market in Lancaster.

We also have a fine lot of Wagon Gear, Breeching, Lines, Traces Hames and Hame Strings, Collars, Pads, Breast Chains, etc., as well as a splendid assortment of Buggy Harness. These goods were bought right and we can save you money. Come and see us and we will prove this to be a fact.

GARRARD COUNTY'S ASSESSMENT.

Interesting Facts and Figures About Land, Live Stock, Crops and Other Property.

The board of supervisors having completed the revision of the Assessor's books for this year, THE RECORD is able to lay before its readers the totals, that will prove interesting. In the preparation of this statement, that clever gentleman, Judge M. D. Hughes, rendered valuable assistance. Compared with the assessments of former years, and considering the stringency of the times, this assessment seems to be fair. The average value of land is a little higher than last year, but the valuation of live stock, etc., is somewhat below that of last year—and properly so. The Agricultural statistics are not supposed to be correct, of course, but they are interesting.

The supervisors did their work conscientiously and well, as any one must have observed who saw them at work. The results below shown are not necessarily final, however, as the State Board of Equalization may alter them.

THE LANCASTER OIL COMPANY.

The Lancaster Oil Company of this place has purchased for the price of \$25,000 the farm of John Wages, in Knox county, upon which the famous Wages gusher has been drilled. The title of the company is fee simple with all appertinances including the one eighth royalty in all of the oil taken from the land by the lessees, the Atlantic and Pacific Company. The Lancaster Company takes the place of Mr. Wages in every respect. The output of the well is variously estimated at from 1,500 to 5,000 barrels of fine oil per day, by natural flow. The lowest estimate made is that of Mr. Wages himself, who places the output at one barrel per minute. According to the judgment of all disinterested persons whom we have heard speak, and who have no interest in the well, this estimate is too low. Without doubt it is the best well, giving out the best quality and greatest quantity of oil yet drilled in Knox county. The oil flows to a height of nearly thirty feet above the ground, filling an eight inch pipe, running a steady stream as long as it remains unplugged. When the well was first opened the oil ran into Richland creek for several miles, and it is said that it ran into the Cumberland river at Barbourville, a distance of seven miles. The well is on Richland creek near the St. Jones well, the Geo. Jones well and the Barnes well. A number of other wells have been, and are being sunk in the immediate neighborhood, one now being drilled on the Wages farm very near to the first Wages well. The royalty going to the Lancaster company at the present market price, if there is no diminution in the flow of oil will be \$140 per day which the company will receive without any trouble on its part. This may be diminished by a diminution of the flow of oil but may be greatly increased by the drilling of other wells. Tanks are being put up and a pipe line will soon be extended from this oil field to Barbourville, the fall of the land conveying the oil in the pipes and delivering it in tanks near the depot without the use of pumps. A fine vein of coal nine feet thick was passed through in drilling this well at a depth of only forty feet from the surface of the ground. The company will sell a limited amount of stock, all purchasers of which will participate in the proceeds of the Wages oil farm as well as oil from all wells which the company proposes to drill on leased lands. The company is composed of well known business and professional gentlemen of Lancaster. It was incorporated here at home and its personnel is a guarantee that it is a solid company.

Capt. Herndon received a telegram Tuesday saying another "gusher" equally as good was struck, and is flowing equally as freely as the one mentioned above.

BRYANTSVILLE.

The ladies of the Christian church are preparing to carpet the church floor at Pleasant Grove.

Rev. Derby, of Asbury College, filled the pulpit at the Methodist church in the absence of the regular pastor.

Jeff Dunn sold to Beard & Co., of Lexington, three mules at \$115 per head, also to Will and John Poor, of Beuna Vista, two head.

Miss Pattie Dickerson, of Nicholasville, is the guest of Miss Carrie Boulden. Mrs. Eliza Ballard has returned from a three weeks' visit to relatives in Lexington. Miss N. Bourne is visiting relatives in Nicholasville.

Mr. and Mrs. Dickerson spent Saturday with Mrs. Mag Folger, of Nicholasville. Mrs. Armstrong entertained Rev. Derby, Sunday at dinner. Squire Ike Dunn's son Dave, is on the sick list.

Wants To Help Others.

"I had stomach trouble all my life," says Edw. Mehler, proprietor of the Union Bottling Works, Erie, Pa., "and tried all kinds of remedies, went to several doctors and spent considerable money trying to get a moment's peace. Finally I read of Kodol Dyspepsia Cure and have been taking it to my great satisfaction. I never found its equal for stomach trouble and I gladly recommend it to hope that I may help other sufferers." Kodol Dyspepsia Cure cures stomach troubles. You don't have to diet. Kodol Dyspepsia Cure digests what you eat.

BUCKEYE.

Mr. and Mrs. S. B. Totten, of your city visited the former's sister, Mrs. Mike Ray, Sunday.... Mr. and Mrs. J. W. CENTRAL RECORD.

— An Independent, Local Newspaper. —
ISSUED WEEKLY.
LOUIS LANDRAM, Editor and Publisher.

Lancaster, Ky April 10th 1902.

The effort of the Louisville Commercial Club to raise funds for a suitable Kentucky exhibit at the St. Louis fair is commendable and should receive the support of the people. The failure of the Legislature to make suitable appropriations was a great mistake. Fifty thousand dollars donated by the state would have made a good showing, provided the commissioners appointed would have been business men instead of a lot of red-nosed politicians appointed only on their "pull." We believe the plan for every citizen to give one dollar will work well, and if proper parties are selected in each locality the amount can be raised in a short time.

ECONOMY can be overdone, says a thoughtful exchange. A fellow who works hard all his life can die owning broad acres, stocks and bonds, notes and cash for heirs to quarrel over. He can go without the comforts of life, denying himself all luxuries; he is roundly hated by all he deals with for his close, stingy ways; may choose dollars instead of friends, and never see a day of rest, amassing wealth for those who never care for him and who have only waited for him to be out of the way to reap the reward for his skimping and labor.

A young lady wrote the Louisville Times to know what would prevent snoring. The "Questions and Answers" man told her that snoring was caused from sleeping with the mouth open, and if she could stop this she would be bothered no more. Its a safe bet the Times man is single, for if he were tied up in double blessedness he would be painfully aware of the fact that it is impossible for the average woman to keep her mouth shut at any time.

The great actor, Nat Goodwin, has decided to star in the "Light Which Failed." He may put this play "on" everywhere else, but when he goes to Louisville he will doubtless put on "The cards I failed to draw." (Our readers will remember that Nathaniel lost some \$17,000 in a poker game in the Falls City last winter.)

UNCLE SAM demonstrated the careful watch he keeps over his children when he stopped the mails of the Lexington Investment companies, and raised the cry, "Fraud!" The old fellow can be relied upon to do the square thing every time, and its sel-

dom a rascal can use his mails.

A KENTUCKIAN has written to his representative for volumes of the congressional Record containing obituaries, saying "there is nothing I read with so much pleasure as obituaries of dead congressmen." The best humor is unconscious.

THE "Female Baseball Club" is touring Kentucky, and we understand Harry McCarty, of the Jessamine Journal, is counting the days 'til its appearance in Nicholasville with the eagerness that the small boy figures on the circus.

Conclave at Versailles.

The fifty-fifth annual Conclave of the Grand Commandery of Kentucky, Knights Templar, will be held at Versailles on Wednesday and Thursday, May 21 and 22. It promises to be one of the largest ever held in the State. Preparations have been made to entertain at least 1,000 Knights and ladies. Versailles commandery No. 3 will keep "open house" during the entire time and a number of delightful entertainments are being provided for the occasion. Among other features there will be an exhibition drill—in which several Commanderies have already entered—grand receptions, balls, lawn fetes and carriage drives to the stock-farms and historic homes of Woodford county. There will be things to eat and drink and good fellowship on tap at Woodford's beautiful and hospitable capital for three solid days and nights. The entertainment accorded Jonah by the whale was positively frigid in comparison with the warm reception that Versailles Commandery will have in readiness for its guests.

The Committee on Decoration has arranged for a lavish display, and the entire city will be dressed in gala attire, while eight brass bands will charm the soul with music galore. The First Regiment Band of Cincinnati (20 pieces) has been engaged to play during the Conclave at Versailles Commandery headquarters.

In short, the little pot will be encased in the big pot and the proverbial latherstring will be found dangling on the weather side of the doors.

Good for Rheumatism.

Last fall I was taken with a very severe attack of muscular rheumatism which caused me great pain and annoyance. After trying several prescriptions and rheumatic cures, I decided to use Chamberlain's Pain Balm, which I had seen advertised in the South Jeoseyman. After two applications of this remedy I was much better, and after using one bottle, was completely cured.—Sallie Harris, Salem, N. J. For sale by R. E. McRoberts, druggist.

The Railroad Brakeman.
"First grined features weather beaten,
Hands that show the scars of toil,
Do you envy him his station,
Foliant of the rail?
In the storm or in the sunshine
He must meet the speeding train,
Right outside at post of duty,
Feeding not the drenching rain.
In the pleasant summer weather
Standing on the car too high,
He can view the changing landscape
As he rushes swiftly by.
While he notes the beautiful pictures
Which the lovely landscape shows,
Suddenly across his drawing
Comes the quick shrill cry for brake,
But when winter, icy fingers
Cover earth with snowy shroud,
And the north wind like a madman
Rushing on with shrieking loud,
Then behold the gallant brakeman
Spring to head the engine's call
Running over the icy car tops,
God protect him if he falls.
Do not seem to treat him kindly,
He will give you some for smiler,
Tho' he's nothing but a brakeman
Do not deem him easily vile;
Speak to him in kindly language
For his clothes are coarse and plain,
For in his breast there surely burns
A heart that feels both joy and pain.
He may have a hopeful mother
He may be her greatest joy,
Perhaps in her home she's praying
For the safety of her boy.
How he loves that dear good mother,
Always bringing her some present
Every time he draws his pay.
Daily facing death and danger—
One misstep or slip of hand
Sends the poor untidy brakeman
To the dreaded, unseen land;
When we scan our evening paper
Note what the fatal message says—
One brief line attracts our notice,
"One more brakeman killed to-day."
In her little lonely cottage,
Waiting in the waning light,
She expects her boy to-night.
Some one brings the fatal message,
"God have mercy! hear her pray
As she reads the fatal message,
"Killed while coupling cars to-day."—E. C.

The Gus Sun American Minstrels.

The Gus Sun American Minstrels, a company composed of an array of artists seldom seen under the management of one man, will appear at the Garrard Opera House April 11. In the selection of people Mr. Sun has spared no money or labor, and in the program will be seen artists fresh from their ovations in the principal amusement temples of Europe, as well as a corps of well-known American minstrel performers, whose appearance on this occasion is a sufficient guarantee of the high character and wholesomeness of the entertainment. We mention among the principals, Sam Horner, Diamond Bros., E. W. Chipman, Jas. Nugent, Sam Drane, Lew Diamond and Gus Sun, assisted by singers, dancers, musicians and supernumeraries. This minstrel program, while not wholly unlike the ordinary minstrel offering, is made up of nothing but refined acts, songs, dances, monologues, sketches and burlesques, expressly arranged for this company. Special scenery, something seldom carried by a minstrel show, and mechanical effects are used by this company in conjunction with the big song and dance and the finale. In equipping this company for the road Mr. Sun has gone to an enormous expense, the special Pullman car "Nellie" alone costing \$10,000—a small fortune. Seats on sale at Stormes. Prices 25c, 50c, 75c.

Hopkinson Smith, Israel Zangwill, Bret Harte and Maarten Maartens are among the other contributors to this number, which is unusually good in fiction.

"Baby Parties."

They are now "all the go" in high-up Washington society. The women appear in the frills, frocks and ribbons of babyhood, while the men wear bibs and baby caps and carry sucking bottles filled with—oh, no! not milk but—champagne! At the end of the evening's entertainment, as a reward for good behavior, the guests are presented with dolls, rattles, and various toy animals. Those participating are expected to talk and act like babies. Old Kentucky may have some odd customs and queer people, but we have yet to record any idiotic instance where she showed up such "warm babies" as the Washington crowd.

Grasp The Opportunity.

The above heading means a great deal to those requiring or intending to buy any kind of a Monument this year.

One of our firm has just returned from a six weeks trip to the leading Granite Quarries, where he placed orders for ten car loads of Monuments for early spring delivery; the largest amount ever ordered at one time for Central Kentucky. By purchasing such a large lot at the dull season of the year, we secured it at unusually low prices; and as it will be shipped at carload freight rates, which also means considerable saving, we are offering it at correspondingly low prices.

Now is your opportunity to order a Monument of the best grade of Barre granite, and of artistic design and execution, lettered in the quarries, shipped direct to your own town, and delivered when desired, at very low prices. If you wish to see our prices, or further information, write us. Wm. Adams & Son, Lexington, Ky. 3-6-3m.

Dreadful Attack of Whooping Cough

Mrs. Ellen Harrison of 300 Park Ave., Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Home and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. 1m

Well, Well, Well.

How much easier it is to deal on the square, treat every body right, sell only first-class goods, and it is the way to build up a trade which all the flourishing of trumpets, booming of cannon and music of brass bands cannot draw from us. We have been here many years, and if there has been any complaint of our goods or prices, that complaint has never reached our ears. We stand ready to back up our goods, and never hesitate to do so, as we buy no other kind. Our lines of dress goods are as complete in styles and quality as you will find anywhere in Kentucky. All we ask is an inspection of our goods, not fearing the result. We have everything to be found in a first-class dry goods store, and nothing affords us more pleasure than to show our goods. Call and see, and we know you will be satisfied. J. Joseph.

Important to Farmers and Other Property Owners.

Are you insured? If not why not? Thousands of dwellings and barns are destroyed by fire and wind storms in the United States every year. Why should you expect yours to escape from year to year. If you have been with-out insurance up to this time and have had no fire, don't you think you had better INSURE AT ONCE. Your property may burn within a year, a month or even TWENTY-FOUR HOURS. Even if it should not burn you will have the peace of mind and freedom from anxiety which a policy in the CONTINENTAL affords to him who holds it. It will only cost you a few dollars a year, a FEW CENTS A WEEK, less than you would pay to paint a barn to PROTECT it from the weather. BETTER BE SURE THAN SORRY. Your property may take fire in any one of a hundred different ways. If your property burns, have your policy in a strong company: THE CONTINENTAL, one that has made its record and been tried, IT COSTS NO MORE THAN TO INSURE IN A POOR ONE. In case of fire your policy in the CONTINENTAL is equivalent to a CHECK ON A BANK. Better look your policies over and satisfy yourself that you have a strong company. Ask for a continental Policy and you are sure of absolute indemnity at fair rates. Placing your fire insurance in some companies is like keeping your valuables in paste-board boxes instead of a modern safe. If your property burns, the money is ready, no ASSESSMENT HAS TO BE MADE ON YOUR NEIGHBORS TO PAY YOU. The Continental's agents examine your property before insuring it so in case of accident, you get all your bottles filled with—oh, no! not milk but—champagne! At the end of the evening's entertainment, as a reward for good behavior, the guests are presented with dolls, rattles, and various toy animals. Those participating are expected to talk and act like babies. Old Kentucky may have some odd customs and queer people, but we have yet to record any idiotic instance where she showed up such "warm babies" as the Washington crowd.

Now's The Time.

Now is the time to prepare for Spring cleaning, papering, painting &c. Milton Sneed, the paper hanger and decorator will do your work cheap and neat. We have the finest, cheapest and prettiest line of wall paper to select from in the city, including all the latest designs, viz: floridities, tapestries, stripes and florals. We will do work any where in the county. Leave order at William Johnson's shoe shop, or address Milton Sneed, Box 65, Lancaster, Ky. 2-20-3m

"Baby Parties."

They are now "all the go" in high-up Washington society. The women appear in the frills, frocks and ribbons of babyhood, while the men wear bibs and baby caps and carry sucking bottles filled with—oh, no! not milk but—champagne! At the end of the evening's entertainment, as a reward for good behavior, the guests are presented with dolls, rattles, and various toy animals. Those participating are expected to talk and act like babies. Old Kentucky may have some odd customs and queer people, but we have yet to record any idiotic instance where she showed up such "warm babies" as the Washington crowd.

The above heading means a great deal to those requiring or intending to buy any kind of a Monument this year.

One of our firm has just returned from a six weeks trip to the leading Granite Quarries, where he placed orders for ten car loads of Monuments for early spring delivery; the largest amount ever ordered at one time for Central Kentucky. By purchasing such a large lot at the dull season of the year, we secured it at unusually low prices; and as it will be shipped at carload freight rates, which also means considerable saving, we are offering it at correspondingly low prices.

Now is your opportunity to order a Monument of the best grade of Barre granite, and of artistic design and execution, lettered in the quarries, shipped direct to your own town, and delivered when desired, at very low prices. If you wish to see our prices, or further information, write us. Wm. Adams & Son, Lexington, Ky. 3-6-3m.

Dreadful Attack of Whooping Cough

Mrs. Ellen Harrison of 300 Park Ave., Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Home and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. 1m

Parents' Responsibility Great

It is the right of every child to be well born, and to the parents it must look for health and happiness. How inconceivably great is the parents' responsibility, and how important that no taint of disease is left in the blood to be transmitted to the helpless child, entailing the most pitiable suffering, and marking its little body with offensive sores and eruptions, catarrh of the nose and throat, weak eyes, glandular swellings, brittle bones, white swelling and deformity.

How can parents look upon such little sufferers and not reproach themselves for bringing so much misery into the world? If you have any disease lurking in your system, how can you expect well developed, healthy children? Cleanse your own blood and build up your health, and you have not only enlarged your capacity for the enjoyment of the pleasures of life, but have discharged a duty all parents owe to posterity, and made mankind healthier and happier.

There is no remedy that so surely reaches deep-seated, stubborn blood troubles as S. S. S. It searches out even hereditary poisons, and removes every taint from the blood, and builds up the general health. If weaklings are growing up around you, right the wrong by putting them on a course of S. S. S. at once. It is a purely vegetable medicine, harmless in its effects, and can be taken by both old and young without fear of any bad results.

Write us about your case, and let our physicians advise and help you. This will cost you nothing, and we will also send our book on blood and skin diseases.

MOTHER'S FRIEND.

Robt. Scott, who is famous as a blacksmith of superior ability is located at Bourne.

The people of our village and vicinity are much elated because we are to have water-works soon. Get plenty water but need works.

Miss Ruth Stone has a tabby cat with four kittens about three weeks old. On Easter night she brought in a live rabbit, not more than five days old, adopted it, and nursed it with same care as her own. It lived until Wednesday of last week. We believe had it not been so very young she would have succeeded in raising it.

Recently it was necessary to use blood-hounds in Judson. They did their work so well that a moral wave has struck the community, at least a desire to go to church has taken possession of several who, heretofore, rarely ever went. May the good work continue. We think the arrangement between the county court and city of Lancaster to possess a pair of blood-hounds, both timely and wise.

"My Face"

Is my fortune," said the pretty maid of the bellad. It is a matter of history that beauty has been the only dower of many a woman whose name has become historic. But, on the other hand, how many a woman of large heart and noble mind has been compelled to say "My face is my misfortune." There can be few greater misfortunes that can befall a woman than to have her face marred by pimples or other eruptions. The cause of these blemishes is found in an impure condition of the blood.

To make the skin clear the blood must be made pure. Dr. Pierce's Golden Medical Discovery purifies the blood and entirely eliminates the elements which corrupt it. It cures scrofula, eczema, pimply eruptions, brown spots, boils, erysipelas and other disfiguring diseases which are caused by the impure condition of the blood.

"For about one year and a half my face was very badly broken out," writes Miss Carrie Adams, of 116 West Main Street, Butterworth, Mich. "I spent a great deal of money with doctors and for different kinds of medicine, but received no benefit. At last I read one of your advertisements in a paper, and obtained a bottle of Dr. Pierce's Golden Medical Discovery. Before I had taken one bottle of this medicine I noticed a change, and after taking three bottles I was entirely cured. I can well recommend Dr. Pierce's Golden Medical Discovery to any one similarly afflicted."

"Three times I have cured myself of erysipelas," writes Mrs. Lolita Mitchell, of 1824 Adeline Street, Oakland, Alameda Co., Calif. "by using your 'Golden Medical Discovery' after I had been under the doctor's care and found no relief."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."
